PROFILE

Seeking an entry-level position to kick-start my career , Eager to learn and grow as a energetic and optimistic individual with relevant technical knowledge.

PROJECT

1.Artvista Gallery | [LINK](#)

- I designed and developed an application using the full-stack (MERN), which had a functionality development like users could filter based on category , add artwork to their shopping cart , view their order details and admin could perform CRUD operations.
- For a secure transaction , I implemented a checkout process intergrated via Stripe

Skills: Html, css, Bootstrap, React js , Redux, Context API, Role-Based Access Control, JWT, Bcryptjs, Nodemailer, Formik, Auth protected routes, Node js, Express js, mongoose, multer, Stripe, cors

2.Blog App | [LINK](#)

- Admin centric Blog Application. It includes features such as perform CRUD operation by admin and view the blog by users.

Skills: Html, TailwindCss, React js , Redux, Role-Based Access Control, JWT, Bcryptjs, Auth protected routes, Node js, Express js, mongoose, cors

3.Chat App | [LINK](#)

- This Chat app enables you to send and receive messages, images and videos. In this application, we can update our profiles and search the users by name and email

Skills: Html, css, React js , Redux, TailwindCss, Socket-io, JWT, Bcryptjs, Nodejs, Express js, mongoose, cloudinary, moment, React-router-dom, cors
